

## Snow/Tile Guard

## NEW Snow/Tile Guard

FloPlast are pleased to announce the launch of their **NEW** Snow/Tile Guard system.

With UK weather conditions becoming increasingly unpredictable, installing FloPlast's Snow/Tile Guard insures the property is protected, as well as preventing unnecessary injury from falling tiles, snow and debris.

- Easy to handle and straightforward to install.
- Prevents snow/tile slippage.
- 2m wide x 150mm high.
- Brackets should be fitted at a maximum of 800mm centres, using 2 x 1½" x 12" round head screws.
- Galvanised - for long lasting guarantee.
- Protects conservatories from falling roof tiles.
- Assists in reducing insurance costs/claims caused by snow/tile damage.
- Only suitable for fascias that are 175mm or deeper.
